### **Legal & Financial Planning**

Joann Beck is a local attorney who is very familiar with elderly issues as well as financial planning. Joann will speak about the financial preparation that needs to be done when your loved one has been diagnosed with a serious illness. Long-term financial planning is important for everyone—but it is essential if you are coping with the expense of a long term illness, such as Alzheimer's disease. Learn:

- The difference between Medicare and Medicaid;
- When should you get a Power of Attorney for your loved one;
- Is a guardianship necessary;
- How do you provide for the financial needs of your loved one who may need long term care without becoming impoverished yourself.

JoAnn Beck says, "A critical step in providing the best care for yourself and your loved one is to be prepared with financial facts about long term care planning."

**Join a caregiver support group if you have questions or concerns as you care for or support someone with dementia. All groups are free & meet from 2-3P:**
